DISEASE: DEFECTS IN ABCELL ARE THE CAUSE OF PROGRESSIVE FAMILIAL INTRAHEBATIC CHOLESTASIS 2 (PETC2), AN INHERITED LIVER DISEASE OF CHILDHOOD. PETC2 IS CHARACTERIZED BY CHOLESTASIS AND NORMAL SERUM GAMMA-GLUTAMYLITRANSFERASE ACTIVITY. DEFECTS IN ABCELL ARE ALSO FOUND IN CASES OF CHRONIC LIVERAHEPATIC CHOLESTASIS WITHOUT OBVIOUS FAMILIAL HISTORY OF CHRONIC LIVER DISEASE.

SIMILARITY: BELONGS TO THE ABC TRANSPORTER FAMILY. MDR SUBFAMILY.

I "The sister of P-glycoprotein represents the canalicular export pump of mammalian liver.";

L J. Biol. Chem. 273:10046-10050(1998).

-!- FUNCTION: INVOLVED IN THE ATP-DEPENDENT SECRETION OF INTO THE CANALICULUS OF HEPATOCYTES.

-!- SUBCELULAR LOCATION: Integral membrane protein.

-!- TISSUE SPECIFICITY: EXPRESSED PREDOMINANTLY, IF NOT THE LIVER, WHERE IT WAS FURTHER LOCALIZED TO THE CAN MICROVILLI AND TO SUBCANALICULAR VESICLES OF THE HEP STORY.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             AB11_RAT 070127;

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                          4575
